Title: Cotton Spinning Process

Author: Lu Te-k'uan 呂德寬

Publisher: Hsien-wei Kung-yeh Ch'u-pan She, third edition, Shanghai, 1951

Sponsor or Issuing Authority: None indicated

No Pages: 434, Vol I, II Language: Chinese

Area of Coverage: China

Subjects Covered: Discusses cotton-spinning process, including the major operations of mixing, opening, scutching, carding, drawing, preparing, spinning, and finishing of cotton into carded yarn. Also discusses cotton-spinning machines and their operations and maintenance. Photographs and diagrams of cotton-spinning machinery are given

Review: Textbook for vocational school students or shop foremen. Gives a step-by-step description of the various processes involved in the spinning of cotton yarn and the machinery used in each. English equivalents are given for Chinese textile terminology. Book which includes an English-Chinese glossary is an enlarged edition of book written in 1947 and revised in 1949. Spinning processes and machinery described in book are those used in American and British textile industries.
